Title: Dissemination, communication and engagement of the In Silico Medicine Community

Tutor: Prof Marco Viceconti - https://www.unibo.it/sitoweb/marco.viceconti/en

Funding source:
- project COMBPIOMED2 (Grant N. 823712)
- project STRITUVAD (Grant N. 777123)

Research Project

The aim of this research contract is to consolidate and further develop the In Silico World Community of Practice, and drive a targeted dissemination, communication, and engagement for the two funding projects.

The research contract (Assegno di Ricerca), has an annual salary before taxes of € 26,174.00. While the initial contract is for 22 months, if successful the post holder contract could be extended until the end of the COMBPIOMED2 project, in September 2023.

The ideal candidate for this position holds a master degree in Communication Science or related degrees, with documented experience in the dissemination of EU-funded projects on in silico medicine, and one or more of the following skills:
- Experience as community manager for online private social networks
- Experience of methods for monitoring social networks
- Excellent oral and written communication skills

While a PhD is not formally required, we expect most candidates to have one, or being very close to graduation.

Place of work: all activities will take place at the institutional sites of the department DIN, or at the istituto ortopedico Rizzoli (Bologna).

Sede di svolgimento delle attività: le attività si svolgeranno presso le sedi istituzionali del DIN e presso l’istituto ortopedico Rizzoli (Bologna).
